Buying a new car equipped with XM radio, I was hesitant to actually pay for radio. However, after the 3 month free trial, I could not wait to activate the system to use it when and how I wanted. I find it very relaxing to be able to pick my stations, especially the traffic and weather station. I travel I-95 regularly and rely on XM radio for up-to-date information. Please do NOT remove it. It has been a godsend for me.
